Title: INDICATING SYSTEM

---

**IN THE ABSTRACT**

Please replace the Abstract with the following rewritten Abstract:

An indicating system in a device having a heat emitting member. The indicating system ~~comprises~~ includes a thermoelectric generator and an indicating device. The thermoelectric generator is adapted to thermally couple to the heat emitting member and configured to convert heat from the heat emitting element to electrical energy. The indicating device is powered by the electrical energy and configured to provide indication of when a temperature level of the heat emitting member is above a temperature threshold.
